

OSCAR Update

OSCAR is continuing to grow and currently hosts 84 care pathways, across 20 specialities, plus additional supporting guidance and commissioning policies.

What's new?

Respiratory – the following pathways have been added

- Asthma Care Pathways
- Pneumonia Care Pathway, supported by a patient leaflet aimed at:

- Providing patients with a better understanding of pneumonia
- Helping Patients understand what to expect during their recovery.
- Ensuring any deterioration is spotted quickly
- Reducing inappropriate attendance at A & E

[Click here](#) to download the NEW Pneumonia Patient Leaflet

Other recently added pathways include:

- [Chronic Fatigue Syndrome](#)
- [Abnormal Liver Function Tests](#)
- [Diabetes – Lipid Management](#)
- [Thyroid Management](#)
- [ASD & ADHD](#)
- [Heart Murmur](#)
- [Palliative Care](#)
- [Prostate Shared Care](#)
- [Care Navigation](#)
- [Nose Bleed/Epistaxis](#)

Don't forget

We now have an OSCAR app which provides easy access on the move to all OSCAR content

Search for "my-oscar" in the Apple App Store or Google Play
